

be a step ahead in cancer prevention and detection.

Join us for a Cancer Screening at CentraState.

Cancer screenings aim to detect cancer before symptoms appear. They also increase the chances of detecting certain cancers early, when they are most likely to be curable. Take a proactive approach to your health and join us for one of our upcoming cancer lectures and screenings.

Thyroid Screening

January 28; 6 p.m.

**Colorectal Cancer Screening
For Men and Women**

March 25; 6 p.m.

Skin Cancer Screening

May 20; 6 p.m.

**Prostate & Colorectal
Cancer Screening**

February 25 and June 17; 6 p.m.

Oral Health Screening

April 22; 6 p.m.

All screenings are held at The Statesir Cancer Center at CentraState, 901 West Main St., Freehold. There is a \$10 fee for each screening.

To register online, visit centrastate.com/healthprograms or call (732) 308-0570 for more information.
