The minutes of the February 1, 2010 meeting were approved on a motion offered by Mrs. Massey and seconded by Mr. Fitzgerald.

PLANNING BOARD

Garber, Block 29, Lot 10.05, 2 Bluebell, has submitted plans proposing reduction of certain areas of impervious coverage, from 16.3% to 14.4%. However, application is still over maximum allowable impervious of 10%. Some of the coverage is due to structures built without permission, ex., a basketball court. The Commission supports the limit of impervious coverage, as there are sound environmental reasons for it.
