APPLICATION FOR FIRE SAFETY PERMIT

The N.J. State Fire Code N.J.A.C. 5:70-2.7(a) states:

“Permits shall be required and obtained from the local enforcing agency for the activities specified in this section, except where they are an integral part of a process or activity by reason of which a use is required to be registered and regulated as a life hazard use. Permits shall at all times be kept in the premises designated therein and shall at all times be subject to inspection by the fire official.”

NOTE: Each individual act requires a separate permit. There are five (5) types of permits. Consult your local Fire Marshall for the types of permit(s) required and the fee schedule. **The activity is not to take place unless the Fire Marshall has issued an approved permit.** Conducting the activity before an inspection and receiving an approved permit will result in penalties and fines. Allow 2-3 weeks after filing an application for processing and scheduling of the inspection.
